

MK2 direct fluorescent tube replacement

MK2-120 and MK2-277 run off of building power without the need for ballasts at 120V and 277V. Perfect for T12 replacement programs, or where the removal of T8 ballasts is justified by the elimination of an inefficient failure point.

Light Output: 1200 lumens

Power Draw: 22 Watts

Power Input Options: 120V and 277V AC

Color Temperature: 3500K and 4200K

3 Year Warranty
